MPE-S13X & S08X

Approved by UL 62368-1 second edition

Magic Power is pleased to announce that one of our most popular series, MPE-S08x, is granted the approval of UL 62368-1 second edition. We are also working on IEC 62368-1 third edition, and will get the approval on **March, 2019** confidently.

According to the information on official website, third edition of IEC 62368-1 was just coming out on Oct 4, 2018. Since this latest standard of IEC 62368-1 is superseding EN/UL 60950-1, the cessation of EN/UL 60950-1 had been scheduled for Dec 20, 2020.

Regarding differences between third edition of IEC 62368-1 and previous edition, there are some additional sections for:

1. Outdoor equipments
2. Insulating liquids
3. Work cells
4. Wireless power transmitters
5. Fully insulated winding wire(FIW)

Magic Power is committed to introduce new concept into product development, as IEC 62368-1 is bound to be a development trend of technology industry. On top of that, we will also integrate existing products into new security standard to satisfy market demand.

MPE-S08x
80W forced air/60W convection-cooled
12, 24, 48V with optional output 5Vsb
Compact size 2" x 4"

MPE-S13x
130W forced air/100W convection-cooled
12, 24, 48V with optional output 5Vsb
Compact size 2" x 4"
