3 x 5" 500W

High Power Density PSU

Coming Soon !

MPI-G500

- 3 x 5" AC/DC open frame popular foot print
- Fan-cooled 500W power/convection 300W
- 12, 24V,48V OP available & optional +5VSB@2A
- PFC Class D
- Up to 95% efficiency
- UL&CB 62368-1 Safety

Applying Now

- Designed to meet 60335
- No load power <0.5W with +5VSB version

[Contact Us for More Detail!](#)

MPI-G500 is our new released model up to 500W and with high power density. It could be operated in wide temperature range from -20°C to $+80^{\circ}\text{C}$. This model also has an efficient energy transition with 95% efficiency, which means less heat dissipation issue. Overall, this model will satisfy instruments that require high output but with limited space. The utilization of this model includes household instrument and industrial application.

For flexible mechanical design, this model is available in three different formats. Except open frame, we also provide the type with fan & with cover.

With Fan

With Cover

More new projects and upgraded products coming soon.
