Standard Medical Power Supplies

Magic Power has released various medical power supplies in the past few years. It's worth mentioning that our products meet **2xMOPP**, IEC EMI CISPR/FCC class B. Moreover, they are designed with **class II** for home care medical application used. Our open frame single output ranges from **50W~650W**, as for ATX version it ranges from **60W~650W**. Besides, our standard medical power supplies have **wide range of operating temperatures**, and some of them also equipped **with fanless design**. All in all, Magic Power guarantees you the most reliable products.

Iconic medical power supplies

MPM-S100 series
Watt: 100W
Input:90-264 VAC
Output:+12V+24V,+48V

MPM-G200 series
Watt: 120W/200W
Input:90-264 VAC
Output:+12V~14V,+19~20V...

MPM-U650 series
Watt: 450W/650W
Input:90-264 VAC
Output:+5V,+12V,+24V,+48V...

MPM-706H
Watt: 60W/80W
Input:90~264VAC
Output:+5V,+12V,-12V,-5V...

MPM-815H
Watt:150W
Input:90-264VAC
Output:+5V,+12V,-12V...

MPM-A30H
Watt:300W
Input:90~264VAC
Output:+5V,+12V,-5V,-12V...

Applications

X-ray machine

Endoscope

Defibrillators

Ultrasonic

Surgical light

Endogenous laser treatment
