| CLASS II | -20 °C<br>+80 °C | 5000 Meter |
|          | 90% ↑            |            |

- AC/DC industrial PSU with compact size 2" x 4", height less than 1" (20mm), great for small spaces and home appliances
- Single output 12V, 24V, 48V, 60W convection cooling, 120W peak power for 3 seconds at 230~264VAC
- Green design with less than 0.1W no-load power for energy savings
- Design to meet for industrial and household use with IEC 62368 and EN 60335-1. Meets EMI CISPR/FCC Class B
- Improved manufacturing efficiency with SMD components
