Product Line

MPE-S130

- Watt: 110W/130W
- O/P : 12V, 24V, 48V
- Optional 5Vsb

MPE-S080

- Watt: 65W/80W
- O/P : 12V, 24V, 48V
- Optional 5Vsb

MPE-S100

- Watt: 100W/115W
- O/P : 12V, 24V, 48V
- Optional 5Vsb

MPE-S060

- Watt: 60W/80W
- O/P : 12V, 24V, 48V
- Optional 5Vsb

As one of our high efficiency series, these models are designed for general-purposed; however, here are several advantages these models will best suit our customers especially for IPC and embedded system.

Beyond its compact size, this series have four different models and additional 5Vsb to provide more solutions for customers.

Moreover, the design meets EMI CISPR/FCC Class A&B, and both Class II and Class I standard.

With efficiency up to 90% and less than 0.5W no-load consumption, this series is also an energy saving machine.

Since MPE-S130 and S080 are new released, these models have better EMI performance and wide operating temperature up to 80°C. The upgrade allow these models to work under harsher environment.

More new project and upgraded products coming soon.
